

REBOUND GYMNASTICS CLUB

"PHOTOGRAPHY POLICY"

IMPORTANT INFORMATION FOR PARENTS

This information is particularly important if your child is participating in her first competition.

You will not be allowed to use a video or still camera at any stage during the competition (or at the end of the competition whilst your child is still in the competition area), unless you have obtained a Photography Pass.

Passes are valid for a 3-year period and currently cost £3.00. They can be obtained by completing the appropriate application form (available from the Club Secretary) together with two passport sized photographs. The Club will submit applications on parents' behalf at the start of the competition year. Passes can, however, be obtained throughout the year. If parents apply for a pass separately they are asked to let the Club Secretary know so that their details can be included on the Club Photography Register.

New Passes will be available at the registration desk of each competition.

New Rule for 2004

The Policy also covers "camera" phones. To avoid the use of mobile phones as cameras, **NO MOBILE PHONES** may be used in the competition area at any time. Anyone contravening this rule may be asked to surrender the phone until after the event.
